AIR QUALITY ADVISORY:

Air quality is expected to be unhealthy for sensitive individuals
in the Santa Clarita Valley

LOS ANGELES - Air quality is expected to be unhealthy for sensitive individuals in the Santa Clarita Valley today, according to the South Coast Air Quality Management District (AQMD).

Los Angeles County Health Officer and Public Health Director, Jonathan E. Fielding, MD, MPH, advises people living or working in the Santa Clarita Valley with heart disease, asthma or other respiratory disease to minimize outdoor activities. Schools that have children with sensitive conditions, including heart disease, asthma, other chronic respiratory diseases, should not participate in PE or outdoor physical activity and should stay indoors as much as possible.

The Department of Public Health is committed to protecting and improving the health of the nearly 10 million residents of Los Angeles County. Through a variety of programs, community partnerships and services, Public Health oversees environmental health, disease control, and community and family health. Public Health comprises more than 4,000 employees and has an annual budget exceeding \$750 million.
