AIR QUALITY ADVISORY:

Air quality will be unhealthy for sensitive individuals in the Antelope Valley and the Santa Clarita Valley

LOS ANGELES - According to the South Coast Air Quality Management District, the air quality will be unhealthy for sensitive individuals in the Antelope Valley tomorrow. It will also continue to be unhealthy for sensitive individuals in the Santa Clarita Valley until further notice.

Los Angeles County Health Officer and Public Health Director, Jonathan E. Fielding, MD, MPH, advises people living or working in the Antelope Valley and the Santa Clarita Valley with heart disease, asthma or other respiratory disease to minimize outdoor activities. Schools that have children with sensitive conditions, including heart disease, asthma, other chronic respiratory diseases, should not participate in PE or outdoor physical activity and should stay indoors as much as possible.

The Department of Public Health is committed to protecting and improving the health of the nearly 10 million residents of Los Angeles County. Through a variety of programs, community partnerships and services, Public Health oversees environmental health, disease control, and community and family health. Public Health comprises more than 4,000 employees and an annual budget exceeding \$750 million.
